Learn How to Automate Common Tasks with **Bash** Shell Scripting

Thank you

Logical Operators

- **Logical AND Operator** `&&` or `-a`
 - will compare two inputs & if both are true, it will return true else false.
- **Logical OR Operator** `||` or `-o`
 - Will check two conditions will return true, if any of them is true & return false when both are false.
- **Logical NOT Operator** `!`
 - will return true when the condition is false & return false if the condition is true.
